# APPLIED ERGONOMICS

Index to Volume 26 (1995), Nos 1–6, pages 1–440

## Articles

A field study of worker productivity improvements *Shikdar, A.A. and Das, B.* **21**

A method assigned for the identification of ergonomic hazards – PLIBEL *Kemmlert, K.* **199**

A portable ergonomic observation method (PEO) for computerized on-line recording of postures and manual handling *Frasson-Hall, C., Gloria, R., Kilbom, Å., Winkel, J., Karlqvist, L., Wiktorin, C. and Stockholm MUSIC 1 Study Group* **93**

A review of machine-guarding recommendations *Vaillancourt, D.R. and Snook, S.H.* **141**

A software toolkit for hierarchical task analysis *Bass, A., Aspinall, J., Walters, G. and Stanton, N.* **147**

An anthropometric survey of Indian schoolchildren aged 3–5 years *Ray, G.G., Ghosh, S. and Atreya, V.* **67**

An ergonomic design and performance evaluation of handy scanners by males *Lee, Y.-H. and Weng, J.* **425**

An ergonomic evaluation of handle height and load in maximal and submaximal cart pushing *Resnick, M.L. and Chaffin, D.B.* **173**

Baggage handling postures and the design of conveyors *Thomas, R.G., van Baar, C.E. and van der Stee, M.J.* **123**

Climatic stress in the workplace: its effect on thermoregulatory responses and muscle fatigue in female workers *Chad, K.E. and Brown, J.M.M.* **29**

Comfort of personal protective equipment *Akbar-Khanzadeh, F., Bisesi, M.S. and Rivas, R.D.* **195**

Computer workstation adjustment: a novel process and large sample study *Hochanadel, C.D.* **315**

Critical power as an endurance index *Vautier, J.F., Vandewalle, H., Arabi, H. and Monod, H.* **117**

Development of predictive equations for lifting strengths *Kumar, S.* **327**

Effects of the handle diameter and tip angle of chopsticks on the food-serving performance of male subjects *Wu, S.-P.* **379**

Ergonomic development work: co-education as a support for user participation at a car assembly plant. A case study *Garmer, K., Dahlman, S. and Sperling, L.* **417**

Ergonomics and international standards. History, organizational structure and method of development *Parsons, K.C., Shackel, B. and Metz, B.* **249**

Ergonomics and international standards. Introduction, brief review of standards for anthropometry and control room design and useful information *Parsons, K.C.* **239**

Ergonomics of the physical environment. International ergonomics standards concerning speech communication, danger signals, lighting, vibration and surface temperatures *Parsons, K.C.* **281**

Ergonomics standards concerning human–system interaction. Visual displays, controls and environmental requirements *Stewart, T.* **271**

Evaluation of an ergonomics intervention programme in VDT workplaces *Westlander, G., Viitasara, E., Johansson, A. and Shahnavaz, H.* **83**

Evaluation of an intelligent seat system *Ng, D., Cassar, T. and Gross, C.M.* **109**

Evaluation of handgrip force from EMG measurements *Duque, J., Masset, D. and Malchaire, J.* **61**

Evaporative heat transfer characteristics of industrial safety helmets *Liu, X., Holmér, I.* **135**

Factors affecting posture for machine sewing tasks: the need for changes in sewing machine design *Li, G., Haslegrave, C.M. and Corlett, E.N.* **35**

Force–endurance relationship: does it matter if gloves are donned? *Bishu, R.R., Kim, B. and Klute, G.* **179**

Forces applied to large hand wheels *Woldstad, J.C., McMulkin, M.L. and Bussi, C.A.* **55**

International standards and the ergonomics of the thermal environment *Olesen, B.W.* **293**

Interview protocols and ergonomics checklist for analysing overexertion back accidents among nursing personnel *Engkvist, I.L., Hagberg, M., Wigaeus-Hjelm, E., Menckel, E., Ekenvall, L. and PROSA Study Group* **213**

Is there a reduction in postural load when wearing progressive lenses during VDT work over a three-month period? *Horgen, G., Aarås, A., Fagerthun, H. and Larsen, S.* **165**

Manual handling human loads in a hospital: an exploratory study to identify nurses' perceptions *Hignett, S. and Richardson, B.* **221**

Occupational disorders affecting agricultural workers in tropical developing countries. Results of a literature review *Rainbird, G. and O'Neill, D.* **187**

Packing products for customers: an ergonomics evaluation of three supermarket checkouts *Carrasco, C., Coleman, N., Healey, S. and Lusted, M.* **101**

Perception testing of apparel ease variation *Ashdown, S.P. and DeLong, M.* **47**

Physiological criteria for functioning of hands in the cold: a review *Heus, R., Daanen, H.A.M. and Havenith, G.* **5**

Pilot performance and preference for short cycles of automation in adaptive function allocation *Scallen, S.F., Hancock, P.A. and Duley, J.A.* **397**

Pregnant women and workng surface height and working surface areas for standing manual work *Paul, J.A., Frings-Dresen, M.H.W., Sallé, H.J.A. and Rozendal, R.H.* **129**

Proposed manual handling International and European Standards *Dickinson, C.E.* **265**

Reading text presented on a small display *Juola, J.F., Tiritoglu, A. and Pleunis, J.* **227**

Reduction of farmers' postural load during occupationally oriented medical rehabilitation *Nevala-Puranen, N.* **411**

Relationships between ergonomics and quality in assembly work *Eklund, J.A.E.* **15**

Spatial performance with perspective displays as a function of computer graphics eyepoint elevation and geometric field of view *Barfield, W., Hendrix, C. and Bjorneseth, O.* **307**

Standards for ergonomics principles relating to the design of work systems and to mental workload *Nachreiner, F.* **259**

The design of entrances of taxis for elderly and disabled passengers *Petzäll, J.* **343**

The development of ergonomics standards for software *Harker, S.* **275**

Usability of manual handling aids for transporting materials *Mack, K., Haslegrave, C.M. and Gray, M.I.* **353**

User productivity as a function of AutoCAD interface design *Mitta, D.A. and Flores, P.L.* **387**

Work activities and musculoskeletal complaints among preschool workers *Grant, K.A., Habes D.J. and Tepper, A.L.* **405**

## Authors of Articles

Aarås, A. **165**
Akbar-Khanzadeh, F. **195**
Arabi, H. **117**
Ashdown, S.P. **47**
Aspinall, J. **147**
Atreya, V. **67**
Baar, C.E. van **123**
